## Experienced at Planning – Experienced at Implementing

#### STRATEGY

Engage Advanteks to learn the Strategic Advantage that applied technology can give your business. Knowing the current trends and market initiatives are key to having a solid strategic advantage.

field of wireless technology. Can you implement a solution that will fix the pain points in ...

#### INNOVATION

Is your Competitive Advantage in the Market simply the technology itself? With the speed at which technology changes this may leave you behind very quickly. Advanteks can turn your solution into a “*technology innovation*” that will put you ahead of the competition.

... your business process and also give you a competitive advantage others will be running off to duplicate?

Whether your focus is Customer Service, Operations, Safety or all of the above Advanteks can assist you being an Innovator.

There are rapid advances in the

#### INTEGRATION

Application or system vendors are typically the best in their field – you wouldn’t engage them if they weren’t. Their skills, however, may not be best suited to integrating their product into your Enterprise Architecture. *Advanteks* consultants will work with your vendor and the people that know the business the best – your employees – to build a solid integration plan.

#### SOUND SOLUTIONS

We make it our business to know your business. How we can apply the *Advanteks* Strategy, Innovation and Integration Plan to your solutions makes good business sense.

#### YOUR ADVANTAGE

#### THE *ADVANTEKS* ADVANTAGE

The *Advanteks* consultants have spent over 17 years in the Airline IT sector and have planned and implemented technology solutions for Regional, Mainline, and Low-Fare Carriers.

Our Partners in the industry add to that experience to make *Advanteks, Inc.* the perfect fit for your business solutions.

If you recognize a need for some innovative thinking and some strategic solutions, don’t let this opportunity pass by. Contact an *Advanteks Inc.* representative now.

*Advanteks* consultants have accumulated over 25 years of experience in the Aviation industry.

## Put our experience to work on your initiatives

### *ADVANTEKS CAN:*

Work with your Marketing and IT groups to find the right technology solution to meet your requirements.

Work with your vendor to build an implementation and integration plan that understands your Enterprise Architecture

Work with your employees to understand new requirements or existing '*pain points*' in your current business process.

Do a study of your existing systems (Mx, Res, Ops, etc) to examine architecture, hardware, failover, support etc and deliver a report.

Build on-line, printed or interactive training documentation for your systems.
